

PIA specializes in more than just aviation training. Students attending PIA's School of Specialized Technology have the opportunity to gain skills that are valuable in a variety of industries.

If you are interested in exploring training opportunities that will prepare you for a career in manufacturing, industrial maintenance and repair, power generation, or a host of other industries that utilize automated or electronic processes, then an Associate in Specialized Technology degree from PIA may be the right path.

If you enjoy working with your hands and learning how modern machines and devices operate, then there's a good chance one of PIA's Technology programs is a perfect match for you.
