

# PIA Branch Campuses – Tools & Equipment Requirements

Effective July 1, 2023

The tools listed here may be purchased from any source. As a service to its students, PIA permits several vendors to visit the school and address new students concerning their tool needs. Acquisition of the tools listed is a requirement for successful progress. Students who do not obtain the required tools at the times indicated may be sent home by their respective instructors and will not be permitted to reenter school until they have acquired the prescribed tools.

The student must possess the tools listed on the first day of the semester indicated. These are new tools, which MUST be acquired for each term of study. Some tools used, particularly in later terms, are those previously purchased by the student, and are not listed here. The student may obtain an inventory of all tools required for a particular term of study from the appropriate instructor.
