FAA Certification Fees

Three Federal Aviation Administration (FAA) practical and oral examinations are required for certification: General, Airframe, and Powerplant. The cost is established by the current market rate charged by FAA Designated Mechanic Examiners (DMEs). The typical cost is \$285.00 per exam, for a total of \$855.00.

The FAA also requires three knowledge tests, conducted by computer, be passed for each of the three aforementioned areas. The cost for these exams is established by the test provider, not by the school, and is typically \$115.00 per test, for a total of \$345.00.
